

Fresh u-pick and freshly dried
Sustainable home grown herbs
In innovative arrangements, blends and teas

New for Covid19 times

Dear Herb Lover or Sustainable Garden Enthusiast,

An internship is available with Big Sky Herbs, a local sustainable herb grower who was formally Urban Herbs. The half acre of 100 medicinal tea herbs and 40 culinary herbs is located in the West Missoula Valley. Interns are needed year round to work and expand this small sustainable business venture, where both e-commerce and sustainable growing practices are involved.

From April through October interns can help with gardening, operating the U-Pick Garden, Saturday Markets and fairs.

Learning objectives for the growing season would include:

1. Maintaining and landscaping the sustainable garden/yard area for productivity and U Pick events
2. Promoting the selling of herbs at the Saturday Market and online
3. Assisting and teaching during the U-Pick events
4. Harvesting and helping with drying, making culinary, wellness tea and aromatic herb products

Year round learning and credit is available through helping with this business.

Non Students ARE welcome...We'll keep track of your hours so you can apply them to any program where they will be applicable.

We can take only a few interns at this time **so we can practice social distancing**. While the weather is variable, we can have one intern in the greenhouse, one intern in the crafting room, one in the screen porch potting area. As the weather gets cooperative we can have many in the garden.

Spread the herb,

Lori Elliott
